

Prescription Financial Assistance

If you fall below 350% of the federal poverty guidelines for income, you may qualify for Penn Highlands Healthcare's (PHH) Pharmacy Financial Assistance Program. Under this program, you may be entitled to assistance with your copays at PHH community pharmacies depending on your financial status. If your income falls below the federal guidelines, please contact our partner, ProAct Pharmacy Benefit Management, who will help determine your eligibility. We encourage you to familiarize yourself with the terms of your insurance coverage.

Pharmacy Financial Assistance Program

**Patient
Information**

*Helping with your
prescription copays*

Understanding the Penn Highlands Pharmacy Assistance Program

Penn Highlands Healthcare strives to provide our patients with high quality healthcare while making your experiences with our health system positive and efficient.

The rising costs of prescription medications and the financial responsibility of copays can place a strain on personal finances and even result in patients not taking the medications they require for their health and wellness.

The Penn Highlands Pharmacy Financial Assistance Program is designed to help with your medication copays for prescriptions written by an eligible Penn Highlands Healthcare physician or provider. Participation in the program is based on your income and the size of your household. In order to receive the program benefits, once you qualify and your account is activated, your prescriptions must be filled at one of the Penn Highlands participating community pharmacies or specialty pharmacy.

It is our intention that participation in the program will help ease your concerns so that you can focus on your main priority – a prompt return to good health.

Registration and Participation

Penn Highlands Healthcare is partnering with ProAct Pharmacy Benefit Management to provide a high level of service to our patients. ProAct will take your registration information and verify your eligibility. If you have medications that are currently being filled at a pharmacy or have a new prescription and wish to enroll in the Penn Highlands Pharmacy Financial Assistance Program follow these registration steps:

- Call ProAct at 1-888-381-3272 and provide the representative with your current income and household size information.
- If you temporarily qualify based on your income and household size, a one-time-use verbal authorization will be given to you to help with your copays.
- The call center will fax the Penn Highlands community pharmacy processing information for each patient once they are temporarily enrolled.
- In order to continue receiving the copay savings, you will be required to submit proof of income documentation to ProAct within 30 days of the verbal authorization.
- Proof of income must be submitted from all eligible sources for all household members including the most recent pay stub showing the gross pay; most recent signed 1040 tax return and/or all W-2s and 1099s for the prior year.
- Patients who do not provide income verification during their temporary period, will have their participation in the program revoked.
- Once all required information is submitted, standard requests are completed within three business days.
- Eligibility status, income and family size information expire 12 months from enrollment. To continue participation, new income verification forms and documentation will need to be provided.
