

Penn Highlands Healthcare

Mission, Vision and Values

Founders' Vision

The hospitals of Penn Highlands Healthcare have been serving the residents of Northwestern/Central Pennsylvania as non-profit, community organizations for more than 100 years. A commitment we value and cherish.

The Founders recognized this commitment in 2011 by establishing Penn Highlands Healthcare on the principles that our community-based and controlled health care system would exist to improve regional access to a wide array of premier primary care and advanced healthcare services while supporting a reverence for life and the worth and dignity for each individual accessing Penn Highlands Healthcare.

We will accomplish the Founders' Vision by embracing and upholding our system's mission, vision and values.

Mission Statement

To provide you with exceptional care through our community-based health system while maintaining a reverence for life.

Vision Statement

To be the integrated health system of choice through excellent quality, service and outcomes.

Value Statement

Quality & Safety	Provide a safe environment with high quality outcomes.
Teamwork	Foster a culture of teamwork, support, trust and loyalty.
Integrity	Practice the principles of honesty, confidentiality, respect and transparency.
Person-Centered Service	Recognize those we serve as equal partners. Demonstrate compassion by listening, engaging, anticipating and exceeding needs and expectations.
Stewardship	Commit to investing in our human and material resources while practicing fiscal responsibility.
Partnership	Offer services and programs through partnerships with our physicians, providers, stakeholders and other organizations.
Education	Expand our emphasis on education and enhance our position as a learning organization.

- Senior Care
- Surgical Services
- Swing Bed
- Urology
- X-Ray/Imaging
- Women’s Health
- Wound Care

About Penn Highlands Healthcare

At Penn Highlands Healthcare, we provide residents of our over 39-county service area with access to the region’s best hospitals, physicians, home care agency, two nursing homes and other affiliates who believe that healthcare should be managed by local board members who live and work in the communities they serve.

The seven hospitals of Penn Highlands Healthcare - Penn Highlands Brookville, Penn Highlands Clearfield, Penn Highlands DuBois, Penn Highlands Elk, Penn Highlands Huntingdon, Penn Highlands Mon Valley and Penn Highlands Tyrone – each have been serving the residents of Northwestern/Central and Southwestern Pennsylvania as non-profit, community organizations for more than 100+ years.

In addition to its hospitals, Penn Highlands Healthcare is comprised of three home care agencies, approximately 150 clinics (including seven community medical buildings with multi-specialty services), eight community pharmacies and a network of employed physicians, which together provide primary, secondary and tertiary healthcare services. It also includes five long-term care facilities, providing skilled nursing, personal care and senior living communities.

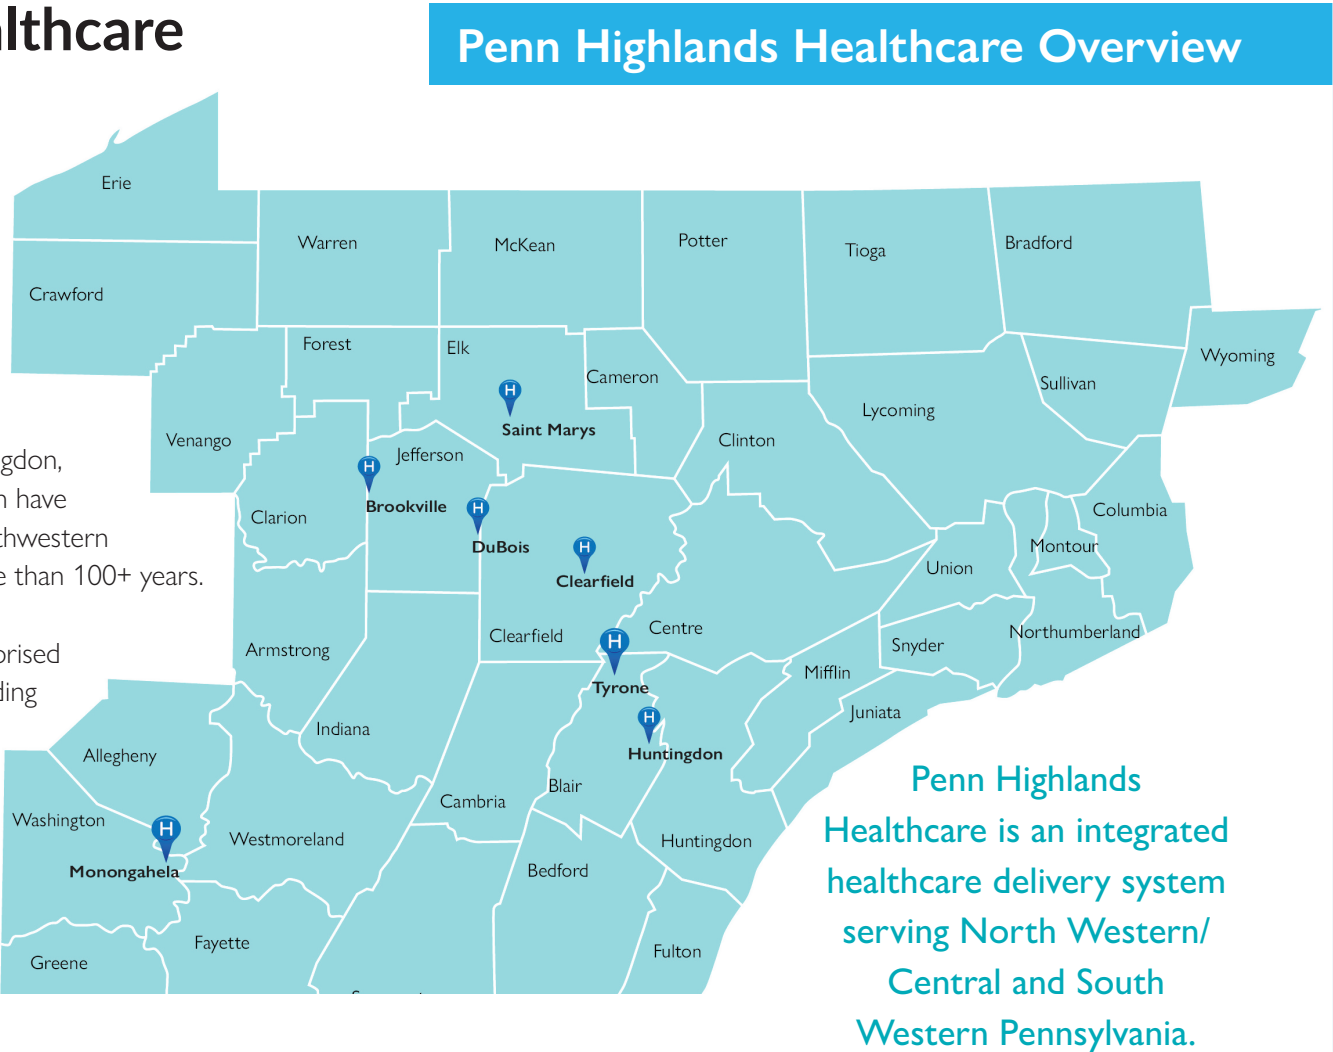

Providing exceptional, quality care to the region, it has more than 6,150 employees and a medical staff of more than 750 providers. The system offers a wide-range of care and treatments with specialty units that care for cancer, cardiovascular/thoracic, lung, brain, spine, neonatal and high-risk pregnancy patients.

Penn Highlands Healthcare most recently made advancements in our robotics program – now offering lung procedures, joint replacements, and general surgery for patients seeking care from our doctors who utilize robotic technology.

In addition, the system is committed to the future of medicine and rural health care. Its Family Medicine Residency Program and Psychiatry Residency Program at Penn Highlands DuBois offers inpatient and outpatient training to prepare physician residents for a career in primary and psychiatric care.

Many quality services are available in or near every community but additional advanced services may also be available at one of the affiliates. That’s one of the greatest strengths of Penn Highlands Healthcare.

Being focused on what is important – patients and families – makes Penn Highlands Healthcare the best choice in the region. With a full spectrum of medical care at accessible locations throughout the region, we are here. Here for you. Here for our communities.
