THE REHABILITATION CENTER

At Penn Highlands, we provide the highest-quality, comprehensive care in Pennsylvania. If you have an illness, condition or surgery that requires rehabilitation therapy in the form of outpatient physical therapy or some other form of therapy, you can trust you won't need to travel far for expert care. Our team of rehabilitation therapy specialists includes experienced rehabilitation medicine physicians and advance practice providers, physical therapists, occupational therapists and speech therapists. We work together to provide you with a comprehensive rehabilitation program specific to your needs, abilities and therapy goals.

And with more than 20+ locations throughout Pennsylvania, you easily find a location when you search for outpatient physical therapy near me!

We offer several types of rehabilitation therapy, including inpatient and outpatient physical therapy, occupational therapy and speech therapy. The Rehabilitation Center of Penn Highlands Healthcare also offers specialized services for all ages, conditions and abilities.
