

Penn Highlands
Clearfield
**HOSPITAL
RENOVATIONS**

Modernize Emergency Department

- Easier access for patients
- Increased work space for staff
- Improved ambulance access
- Enhanced outpatient registration
- Modernized main hospital entrance

The Emergency Department of Penn Highlands Clearfield is used by approximately 18,000 patients per year from a large radius around the greater Clearfield and Moshannon Valley region. This busy department hasn't been updated in many years, and the updates will reflect our commitment to provide exceptional care to our patients.

To accommodate this important service, the Emergency Department will be relocated from the ground floor to the first floor. This move will make use of existing space previously used for patient care.

Entrance to the new ED will be directly off Turnpike Avenue next to the hospital's already existing main entrance which will be updated along with the lobby and cafeteria. A new ambulance bay and canopy will be added, too. This will make all entry easier for patients, emergency personnel and families.

The ED will have a more efficient flow with three triage rooms, ten treatment rooms, two isolation rooms and a secured holding area. The ED will have its own registration area, too.

Outpatient services and its registration area will also be enhanced.

PENN HIGHLANDS HEALTHCARE
MASTER FACILITIES PLAN

MASTER FACILITIES PLAN SUMMARY

- Phase I will occur over three years
- Recruiting efforts are underway to support these building efforts

Penn Highlands Healthcare embarked upon Phase I of its Master Facility Plan that will modernize, improve and expand upon the exceptional services we offer our patients at our hospital campuses and outpatient facilities in the 13-county region we service.

To support these building efforts, we will recruit an additional 100 providers (physicians and advanced practice providers) and over 300 new professional staff members in the nursing and support services fields.

These are exciting times for Penn Highlands Healthcare and we look forward to your support as we continue to grow as the largest independent community-based healthcare provider in the West/Central Pennsylvania region.

Growing our footprint. Here. Here for you.

PENN HIGHLANDS HEALTHCARE
MASTER FACILITIES PLAN

You can help us grow... Your donation to our Master Facilities Plan will help bring even more advanced life-changing care right here. We are honored to partner with you to help care for the communities that we choose to call home.
