

Penn Highlands
Brookville

MEDICAL OFFICE BUILDING

Accessible Parking for Patients

- Located on the Penn Highlands Brookville campus
- Primary and Specialty Care
- Modern registration and outpatient services
- Two-story, 15,000 square feet building

This brand new facility will be located on the Penn Highlands Brookville campus adjacent to the main hospital structure, allowing for convenient drop off and pick up of patients and plenty of accessible parking.

The Brookville Medical Office Building will be a two-story building and will house primary and speciality care super clinics for multiple providers. Modern registration and outpatient services will be an integral part of this building.

PENN HIGHLANDS HEALTHCARE
MASTER FACILITIES PLAN

MASTER FACILITIES PLAN SUMMARY

- Phase I will occur over three years
- Recruiting efforts are underway to support these building efforts

Penn Highlands Healthcare embarked upon Phase I of its Master Facility Plan that will modernize, improve and expand upon the exceptional services we offer our patients at our hospital campuses and outpatient facilities in the 13-county region we service.

To support these building efforts, we will recruit an additional 100 providers (physicians and advanced practice providers) and over 300 new professional staff members in the nursing and support services fields.

These are exciting times for Penn Highlands Healthcare and we look forward to your support as we continue to grow as the largest independent community-based healthcare provider in the West/Central Pennsylvania region.

Growing our footprint. Here. Here for you.

PENN HIGHLANDS HEALTHCARE
MASTER FACILITIES PLAN

You can help us grow... Your donation to our Master Facilities Plan will help bring even more advanced life-changing care right here. We are honored to partner with you to help care for the communities that we choose to call home.
